Bangalore, India | +91-8787074730 | khanmomin1166@gmail.com | Portfolio | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Analytical and detail-oriented **Data Analyst** with hands-on experience building end-to-end data pipelines, analytical dashboards, and enterprise warehousing solutions. Proficient in **SQL, Power BI, DAX, Power Query, and Python**.

Passionate about Data Analytics, inspired by **5+ years of stock market analysis** and a strong belief in the power of data to drive **business growth** and informed **decision-making**.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering

Dec 2022 – Aug 2026

HKBK College of Engineering | VTU | Bangalore, India | CGPA: **8.2 / 10.0**

TECHNICAL SKILLS

Languages: Python, SQL (T-SQL, MySQL), PostgreSQL.

BI & Visualization: Power BI, Microsoft Excel, DAX, Power Query

Python Libraries: Pandas, NumPy, Matplotlib

Database & Tools: SQL Server, SSMS, MySQL, Jupyter Notebook, Git, GitHub, Visual Studio Code, Draw.io

Data Engineering: ETL Pipelines, Data Warehousing, Star Schema Modeling, Medallion Architecture, Data Modeling

Analytics: EDA, Customer Segmentation, KPI Reporting, Dashboard Development, Window Functions, CTEs, Statistical Analysis

PROJECTS

1-Retail Sales & Customer Insights Report 2025

Dec 2025- Jan 2026

[GitHub](#)

Tech Stack: Excel, Pivot Tables, Power Query, Data Cleaning

- Created an **Excel report** that visualized **sales trends, order patterns, and revenue growth**, enabling faster decision-making.
- Identified actionable insights and proposed **marketing tactics** that **boosted customer engagement and lifted sales**.
- Engineered **Power Query** for data cleaning and transformation while designing **dynamic visualizations with slicers, KPI cards, and trend analysis**.
- Generated business insights by identifying that women customers **contributed ~65% of orders**, while Amazon, Flipkart, and Myntra were the **top-performing sales channels**.

2-HR Analytics Dashboard

feb 2026 – Mar 2026

[GitHub](#)

Tech Stack: Power BI, DAX, Power Query, Excel

- Built an interactive **HR Analytics Dashboard** to analyze employee attrition, salary distribution, workforce demographics, and departmental performance.
- Developed **Power Query** transformation workflows and **implemented DAX measures** to compute HR KPIs and **attrition metrics**.
- Designed interactive **reports** with department, age, salary, education, and **tenure analysis** for workforce insights.
- Produced business intelligence reports supporting **employee retention** and HR decision-making.
- Implemented **Data Governance** guidelines during the **HR Analytics Dashboard** project to ensure **data quality and compliance**.

3-Stock Market Analysis & Prediction Platform

5 jun 2026 – 12 jun 2026

[GitHub](#)

Tech Stack: Python, Pandas, NumPy, Streamlit, Plotly, Scikit-Learn, Regression Model

- Consolidated market, financial, and valuation data into a **single analysis platform** to support faster and more informed **investment decisions**.
- Transformed **raw stock market** data into meaningful **performance indicators** by applying **data preparation, financial analysis, and trend evaluation techniques**.
- Built a **predictive model** to estimate **future price movement** using historical market behaviour and feature-based regression.
- Combined company fundamentals, **valuation metrics**, and **risk measures** to enable structured comparison and evidence-based **stock evaluation**.

EXPERIENCE (Self-Driven)

Apr 2024 – Present

[YouTube](#)

- Launched a YouTube channel that gained **1,000+ subscribers** by delivering educational trading videos.
- Performed **market research** and dissected financial datasets, **enhancing analytical decision-making, Stakeholder Management**
- Developed communication and presentation skills through **content creation** and audience engagement.
